## EDUCATION

### Sardar Vallabhbhai National Institute of Technology

Integrated Master of Science

August 2019 – June 2024

Surat, Gujarat

## SUMMARY

Motivated software developer with expertise in Java, Spring Framework, and web technologies. Experienced in building scalable applications with Spring Boot, Hibernate, MySQL, and front-end development using React and Android. Skilled in using AI tools like ChatGPT and GitHub Copilot to enhance development efficiency, aiming to grow as a Java software developer.

## WORK/CERTIFICATES

### Cricket Website (College Internship)

Nov. 2023 - Jan. 2024

Back-End Developer

Surat, Gujarat

- Contributed to the development and management of a live cricket scoring website for college tournaments, engaging 3000+ viewers.
- Implemented real-time score updates using Spring Boot, integrating match data for enhanced user experience.

### Certifications [View All Certificates]

- HTML/CSS/JavaScript Bootcamp Certificate - Let's Upgrade
- SQL Certificate Bootcamp- Let's Upgrade
- Java Spring Boot Course Certificate - Scalar - InterMediate level
- React Js Full Course Certificate - Scalar - Intermediate level

## PROJECTS

### E-commerce Website | Java, Spring Boot, Hibernate ORM, MySQL, JSP

Nov. 2024

- Developed an e-commerce platform with role-based authentication, effectively capable of managing hundreds of customer requests.
- Developed shopping cart, multi-step checkout, and product management systems, optimizing user experience.
- Incorporated Spring Security, Hibernate ORM, and MySQL for secure, scalable data handling across multiple users.

### CrickScore Live Cricket App | Java, Android Studio, Rest API

Oct. 2023

- Created an Android app for real-time cricket scores, supporting over 20 live matches and showcasing details for more than 30 upcoming and recent games.
- Utilized RecyclerView with CardView and SwipeRefreshLayout to enable smooth updates across multiple match lists.
- Enhanced performance by optimizing data binding and managing asynchronous tasks to handle large datasets.

### Job-Portal Website | Java, Spring Boot, React, Spring Tool Suite, MySQL

Aug. 2024

- Built a job portal with React and Spring Boot, allowing seamless display of hundreds of job listings.
- Integrated MySQL and email notifications for job postings and applications, streamlining communication.
- Designed user-friendly applicant and employer forms to enhance interaction and improve experience.
